

TESTIMONIALS

I am 38 years old and work with athletes and sports teams in the United States, using holistic techniques and massage to repair injuries. I have used Stem-Kine for 2 months and have never felt better. I lost weight, have more energy, and my skin tone and elasticity has changed drastically. I look years younger!

— DESIREE G.

My eyesight is better, my gums were looking healthier, my mind was more at peace, I slept better, and at work I was much more focused and never felt under stress. I haven't felt this good in ten years.

— MARK M.

I am 58 years young and an active individual. For the last two months I have been taking Stem-Kine and the results have astounded me. I am now full of energy and feel boosted the whole day. I used Viagra and this is no longer needed. I strongly recommend it because it has improved my life, thank you Stem-Kine.

— KINGSLEY K.

Your body's stem cells begin to decline at age 25.

Stem-Kine counteracts this effect.

STEM CELL SUPPORT

STEM-KINE™
STEM CELL SUPPORT*

Improve Your Health and Energy.

Stem cells are the body's natural healing mechanism. Science shows that higher levels of these cells correlate with:

- ▶ Overall health and healing capabilities
- ▶ An increase in energy
- ▶ Stronger, quicker nail and hair growth
- ▶ A heightened sense of well-being
- ▶ Healthier skin and complexion

COMBAT THE SIGNS AND SYMPTOMS OF AGING

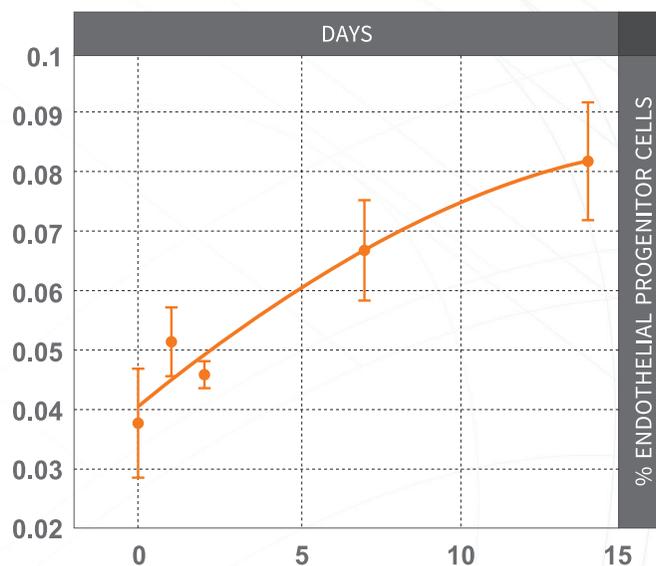

Stem cells decline rapidly with age, particularly in people over 40. By taking Stem-Kine you are increasing your body's ability to heal itself quickly and effectively. Numerous studies demonstrate a direct, positive correlation between the number of circulating stem cells and health, wellness and regenerative capabilities.

HOW DOES IT WORK?

Stem-Kine has been *scientifically proven in two human clinical trials* to increase the number of circulating stem cells in the body by up to 100%*

STEM-KINE SUPPLEMENTATION AUGMENTS CIRCULATING ENDOTHELIAL PROGENITOR CELLS.¹

Data is presented as percentage over control of average values from all 18 subjects.

No other supplement can claim these results. Just as fertilizer stimulates a tree to bear more fruit, Stem-Kine nourishes your bone marrow to release more of its own stem cells into circulation and protects those cells from oxidative stress. It does so through a "secret ingredient" – a cell wall extract of *Lactobacillus fermentum* – developed exclusively for Stem-Kine.

A STEP AHEAD

Stem-Kine nutritionally increases the release of your body's own stem cells into your blood stream, where they can be used to help your body heal.

Our safe and effective clinically proven formula can help you feel energized, maximize healing capabilities and boost immune function.
